

The #1 Electric Vehicle Charging Station Reseller in the Houston Area for Blink Products.

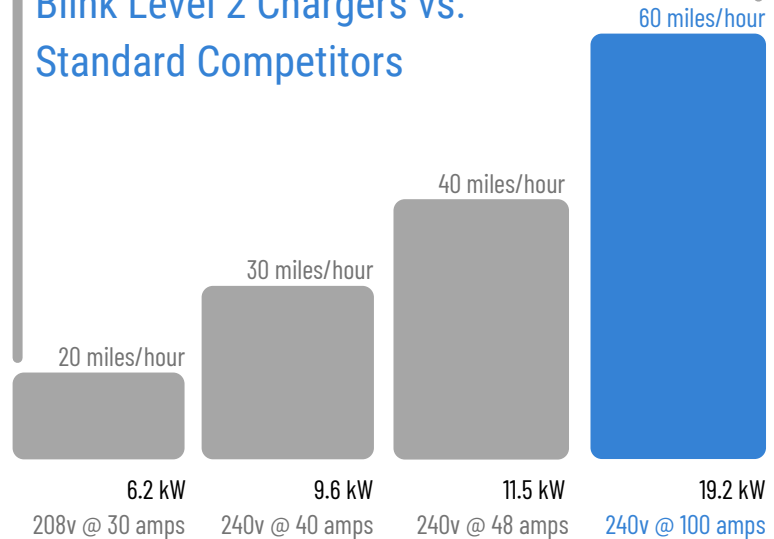

REFUEL ELECTRIC VEHICLE SOLUTIONS

Charging Speed Matters

It pays to have the fastest Level 2 EV Charger.

The Level 2 Blink IQ 200 Product Line delivers more power faster than any other universal charger on the market. This makes properties with IQ 200 chargers the preferred refueling station for EV Owners.

Blink Level 2 Chargers vs. Standard Competitors

Level 2 Charger Product Line

Blink IQ 200 Smart Charger + Kiosk

The IQ 200 Smart Charger can be controlled through an Advanced charger or a Kiosk - ideal for owners looking to deploy chargers in a central area in the property.

Blink IQ 200 Advanced Charger

The IQ 200 Advanced Charger can act as a standalone unit - ideal for owners looking to deploy chargers in several areas around the property.

REVS offers turn-key solutions for all of our clients. Let us work with your property managers to handle everything from questions and surveying to installing and management!

Benefits of deploying the fastest Level 2 charger on your property:

- Quicker vehicle turnover
- Increased revenue opportunities
- Attract higher net-worth customers
- Data analytics and traffic insights
- Improved customer satisfaction
- No need for future electrical upgrades
